The exceptional collaboration between leading architects, designers and hoteliers ensures The Mansions at Acqualina will deliver ultimate perfection.

Every detail has been considered to ensure that the experience of life at The Mansions is unsurpassed so it can truly claim the title of The World's Finest Residences. The Mansions at Acqualina is anticipated to forever raise the bar for luxury to spectacular new heights. Its 79 oceanfront "sky mansions" will feature the most magnificent materials and finishes, exceptional living spaces, life-enhancing amenities, and what is believed to be one of the highest levels of personalized service available anywhere in the world.

The Mansions benefits from its sister development, Acqualina Resort and Spa on the Ocean. Acqualina Resort and Spa is a recipient of the coveted 2014 Forbes Travel Guide Five Star Award for two consecutive years, 2014 AAA Five Diamond Award for five consecutive years and 2012 Andrew Harper's Reader's Choice Award for Top 20 Beach and Family Resorts. This excellence in hospitality provides a unique underpinning for The Mansions at Acqualina and is anticipated to elevate life to an unprecedented level of opulence. ([www.acqualinaresort.com](http://www.acqualinaresort.com)).

One of the outstanding features of The Mansions is that each Residence will be delivered in Furniture Ready state thus saving the owner not only cost and aggravation but also the one year that it usually takes to finish such a residence.

The owner will be given the opportunity to select from four tastefully composed palettes by STA who are world renowned for their uncompromising attention to detail and style. Each apartment at The Mansions has been designed to their exacting standards.

The palettes have an impressive selection of complementary and carefully balanced stones, sourced from the finest quarries in the world. Each palette produces the perfect foundation on which residents can imprint their own interior design personality which can be enhanced with furnishing by Fendi Casa.

The Mansions' \$55 million "Palazzo di Oro," the 18,000 square-foot penthouse, will be unprecedented, with expansive oceanfront spaces and exclusive finishes, perfected by Fendi Casa.

The Acqualina brand commands such loyalty that, even before The Mansions project was formally announced, approximately \$200 million in reservations were recorded from the U.S. and around the globe.

Developers, Eddie and Jules Trump, who created the prestigious Williams Island in Aventura, Florida, continue to define the top tier of luxury real estate in South Florida.

**Residences:** 79 sky mansions, ranging from approximately 4,600 square feet to a 18,000 square-foot penthouse with a private swimming pool.
